Those students who meet the requirements established by the Agencia Nacional Erasmus+ de España (SEPIE) to be considered as students with **fewer opportunities** and submit the respective supporting documentation in Spanish or English in the moment of the pre-selection in its Home University, may benefit from the **additional support to the individual grant for students with fewer opportunities (IB)**, provided that the evaluation of the supporting documentation of the student submitted by the home institution is satisfactory by the UCA.

Meanwhile, those students with a **recognised disability of 33%** or other physical/mental or other issues related to their health, duly documented which need **additional economical support** to the individual grant could apply for information on the **complementary support** that can be received in case their mobility application is accepted (III).
